1. The level of Easy Clean protection can decrease after each cleaning of the fabric, but the process does not affect the look.
2. Respective fabric batches may differ slightly in shade from the colours presented in the sampler.
3. Edgar Textiles is not liable for mechanical damage and such as may be attributable to the improper use and/or cleaning of the fabric.
4. Pilling is caused by the properties of the fabric and is impossible to avoid entirely. This is a natural process, which occurs as the fabric is used.
5. Due to friction against the fabric, colourants can migrate from darker to brighter fabrics.
6. Long-term exposure to sunlight can cause discolouration.
